Undersigned are herewith declaring that above specified filter products are in accordance with the technical specification from Nilfisk-Advance A/S and DOP-tested with particles with an average size of 0,3 micron in accordance with MIL-STD 282. Filtration $\geq 99,99\%$

Filter media: Glass fibre paper.
Leak test: Each filter is individually leak tested with paraffin oil particles with an average size of 0.3 microns.
Quality control: According to ISO 9001.
